In approximately 1,000 words or fewer, please discuss your background, your motives, and your interests as they relate to research in education policy and reform.

## III: GRADUATE ASSISTANTSHIP PLACEMENT

The program awards every accepted and enrolled student a graduate assistantship (GA) renewable for up to four years. There is no need to file a separate graduate assistantship application. The purpose of the GA is for the student to gain experience in social science research methods by working on major research projects and to receive on the job mentoring by individual faculty. Below is a list of available faculty and a link to their web pages containing a curriculum vitae and a description of their research projects.

To facilitate the placement of enrolled applicants on faculty-directed research teams that fit their interests, please rank-order the faculty below according to your interest in their work. Please put a number between the brackets provided [1 = highest preference--7 = lowest preference].
